On both lists, more than half of the listed countries were Member States of the OACPS. The EU recommended that the European institutions and its Member States take coordinated defensive measures against jurisdictions on both lists. The OACPS Council of Ministers discussed the state of play of the EU lists and reflected on a collective and concerted action by the OACPS for the swift removal of members of the OACPS from the lists, as well as the urgent need to put in place mechanisms that would prevent future listing or re-listing of any member of the OACPS.

The Minister of Financial Services and Good Governance participated in the Ministerial Contact Group Meeting and he highlighted the fact that Mauritius is no longer on the EU list of non-cooperative tax jurisdiction pursuant to major reforms brought to the tax regime, yet Mauritius has faced major challenges for being placed on the EU list of high risk third countries.

The Ministerial Contact Group has come up with a common OACPS strategy and recommendations regarding the EU lists. The common OACPS strategy is based on three pillars –

- (a) the strengthening of intra-OACPS cooperation so as to increase and enhance intra-OACPS consultation and cooperation on international tax governance and AML CFT matters;
- (b) dialogue between the OACPS and the European Union, through the establishment of a joint OACPS-EU consultation mechanism on these issues in order to maintain structured dialogue with the competent EU directorates; and
